

INEOS Compounds

INEOS Compounds Aycliffe Ltd

Quality Policy

INEOS Compounds is a leading producer of custom PVC Compounds. We operate our business through means of a Quality Management System that is certified to ISO 9001:2015 in order to satisfy the requirements of all interested parties. It is our intent to be the supplier of choice for users in all industries that require PVC Compounds on the basis of our quality and technical service.

We operate our facility in accordance with INEOS group guidelines putting safe operations at the core of what we do, and continually improve our Quality Management System to improve the quality of our products and service to our customers, by using smart key performance indicators against the annually stated business objectives to measure our performance.
