Section 1 - Product and Company Identification

Product Name: Sodium Metabisulfite

Other Designations: Sodium Pyrosulfite, Disodium Pyrosulfite, Pyrosulfurous Acid,

Disodium Salt, Sodium Disulphite.

General Use: Food preservative, pharmaceutical manufacture, water dechlorination agent, lab

reagent and other chemical process applications.

Manufacturer: INEOS Calabrian Corporation

5500 Hwy. 366

Port Neches, Texas77651

Telephone: 409-727-1471 **Fax:** 409-727-5803

Emergency Contact: CHEMTREC 800-424-9300

Section 2 - Hazards Identification

Emergency Overview

Target Organs: Respiratory system, eyes, skin **GHS Classification:** Acute Toxicity, Oral (Category 4)

Acute Toxicity, Dermal (Category 5) Serious Eye Irritant (Category 2A)

GHS Label Elements: Signal Word - Warning

Pictogram

Corrosive Irritant

Hazard Statements: H302 – Harmful if swallowed

H313 – May be harmful to skin H319 – Causes serious eye irritation

Precautionary P281 – Wear protective equipment for hands, eyes, face and respiratory tract **Statements**: P305, P351 and P338 – IF IN EYES: Rinse with water for several minutes.

Remove contact lenses if present and continue rinsing.

Other Hazards: Contact with acids or water liberates toxic sulfur dioxide gas.

HMIS Classification: Health Hazard 2

Flammability 0 Physical 0

Safety Data Sheet SODIUM METABISULFITE

NFPA Rating: Health Hazard 2

Fire 0
Reactivity 0

Potential Health Inhalation:

Effects: Eye: Irritant
Skin: Irritant

Ingestion: Harmful if swallowed

Aggravated Medical Condition: Capable of provoking bronchospasm in

sulfite sensitive individuals with asthma.

Irritant to respiratory tract

Section 3 - Composition / Information on Ingredients

| Composition Sodium Metabisulfite | CAS Number 007681-57-4 | % wt <i>or</i> vol 98 %(wt) | |
|----------------------------------|-------------------------------|---------------------------------------|--|
| Sodium Sulfite | 007757-83-7 | 1 %(wt) | |
| Sodium Sulfate | 007757-82-6 | 1 %(wt) | |

Section 4 - First Aid Measures

Exposure Route Symptom Treatment

Inhalation: Sore throat, shortness of Remove from exposure to fresh air. Seek

breath coughing, and medical attention in severe cases or if

congestion. recovery is not rapid.

Eye Contact: Irritation to eyes and mucous Irrigate with water until no evidence of

membranes. chemical remains. Obtain medical

attention.

Skin Contact: Irritation, itching, dermatitis Wash with soap and drench with water.

Remove contaminated clothing

and wash before reuse.

Ingestion: Irritation to mucous membranes. Give large quantities of water or milk

immediately. Obtain medical attention.

Seek appropriate medical attention and provide this SDS to attending doctor

Note to physician: Exposure may aggravate acute or chronic asthma, emphysema and

bronchitis.

Section 5 - Fire-Fighting Measures

Flammability: Not Flammable or combustible Extinguishing Media: Dry Powder is recommended

Hazardous Products: May release hazardous gas with fire or water.

Fire-Fighting Instructions: Do not release runoff from fire control methods to sewers or

waterways.

Safety Data Sheet **SODIUM METABISULFITE**

Fire-Fighting Equipment: Because fire may produce toxic thermal decomposition

> products, wear a self-contained breathing apparatus (SCBA) with a full face piece operated in pressure-demand or positive-

pressure mode.

Section 6 - Accidental Release Measures

Spill / Leak Procedures: Wear appropriate PPE - See Section 8.

Small Spills / Leaks: Spills can be neutralized with an alkaline material such as caustic

> soda. Leaks may be located by spraying the area with ammonium hydroxide solution which forms a white fume in

the presence of sulfur dioxide.

Large Spills / Leaks: Containment:

Large spills should be handled according to a predetermined plan. For large spills, dike far ahead of contaminated runoff for later disposal

Section 7 - Handling and Storage

Handling Precautions: Avoid contact with product. Do not breathe dust or vapor. **Storage Requirements:** Store in areas, away from heat and moisture and protect from

physical damage. Segregate from acids and oxidizers.

Section 8 - Exposure Controls / Personal Protection:

| Components | CAS Number | TWA | STEL | IDLH |
|----------------------|-------------------|---------------------|------|------|
| Sodium Metabisulfite | 007681-57-4 | 5 mg/m ³ | * | * |
| Sodium Sulfite | 007757-83-7 | * | * | * |
| Sodium Sulfate | 007757-82-6 | * | * | * |

^{*} None established.

TWA – Time Weighted Average based on 8 hour exposure days and a 40 hour week.

STEL - Short Time Exposure Limit

IDLH - Immediately Dangerous to Life or Health

Ventilation: Provide general or local exhaust ventilation systems to maintain

> airborne concentrations below OSHA limits (Sec. 2). Local exhaust ventilation is preferred because it prevents contaminant dispersion

into the work area by controlling it at the source.

Follow OSHA respirator regulations (29 CFR 1910.134) and if **Respiratory Protection:**

> necessary, wear a MSHA/NIOSH-approved respirator. Select respirator based on its suitability to provide adequate worker protection for given working conditions, level of airborne

contamination, and presence of sufficient oxygen. For emergency or on-routine operations (cleaning spills, reactor vessels, or storage tanks), wear a SCBA. Warning! Air-purifying respirators do not

protect workers in oxygen-deficient atmospheres.

Safety Data Sheet SODIUM METABISULFITE

Protective Clothing / Wear protective gloves, boots, and clothing when necessary to

Equipment: prevent excessive skin contact. Wear protective eyeglasses or

goggles, per OSHA eye and face protection regulations (29CFR 1910.133).

Safety Stations: Make emergency eyewash stations, showers, and washing facilities

available in the work area.

Contaminated Equipment:

Comments:

Remove this material from personal protective equipment as needed. Do not eat, drink, or smoke in work areas. Practice good personal

hygiene after using this material, especially before food or beverage

consumption

Section 9 - Physical and Chemical Properties

Physical State: Solid crystal Water Solubility: 45 % @ 20 ° C

Appearance: White Other Solubility: NA

Odor Threshold: pungent SO₂ odor Boiling Point: Vapor Pressure: Freezing Point:

Vapor Density (Air=1): Melting Point: 150 °C / 302 °F

Formula Weight: 190.11 Evaporation Rate: Normal.

Density: NA **pH:** 4.0 – 4.5 (10 % Soln.)

Specific Gravity (H₂O=1): 1.5 % Volatile: NA

Section 10 - Stability & Reactivity

Stability: Stable under normal conditions.

Polymerization: Hazardous polymerization will not occur.

Chemical Incompatibilities: In the presence of water, or acid, Sodium Metabisulfite (and

solutions) may release toxic and hazardous fumes of sulfur oxides, including sulfur dioxide. Acute poisoning from sulfur dioxide is rare because the gas is easily detected. It is so irritating that contact cannot be tolerated. Symptoms include coughing, hoarseness, sneezing, tearing, and breathing difficulty. However, workers who cannot escape high accidental exposure may suffer severe pulmonary damage which can be fatal. Contact with powdered potassium, sodium metals, alkali, and oxidizing agents produce violent reactions. Reacts with water and steam to form corrosive sulfurous acid. Reacts with chlorates to form unstable chlorine

dioxide.

Conditions to Avoid: Avoid excessive heat, open flame, and moisture. **Hazardous Decomposition:** May release hazardous sulfur dioxide gas.

Section 11 - Toxicological Information

Eye Effects (rabbit):

Skin Effects (rabbit):

Acute Inhalation Effects (rat):

Acute Oral Effects (rat):

Acute Dermal Effects (rat):

Not available.

Not available.

Not available.

LD50 = 1131 mg/kg

LD50 = > 2000 mg/kg

Carcinogenicity: IARC, NTP, and OSHA do not list Sodium Metabisulfite as a

carcinogen.

Safety Data Sheet SODIUM METABISULFITE

Chronic Effects: Prolonged or repeated exposure may cause dermatitis, and

sensitization reactions. Exposure to asthmatic, atopic and sulfite sensitive individuals can result in expiratory volume. Decomposition of sodium metabisulfite and solutions may release toxic and hazardous fumes of sulfur oxides, including sulfur dioxide, which may cause permanent pulmonary impairments from acute and chronic exposure. The Immediately Dangerous to Life or Health (IDLH) level for SO2 is

100 ppm.

Skin: Contact with skin may result in irritation. Sulfite sensitive individuals

may show signs of allergic contact dermatitis from repeated or

prolonged skin exposure.

Eyes: Exposure to dust may cause severe eye irritation with possible

permanent damage.

Inhalation: Inhalation of dust may result in respiratory tract irritation. May cause

asthma-like symptoms in sensitive individuals.

Ingestion: Swallowing can result in nausea, vomiting, diarrhea and abdominal

pain. May also cause allergic reactions in sulfite sensitive individuals

Section 12 - Ecological Information

Ecotoxicity: Sodium Metabisulfite is a non hazardous solid commonly used as

a waste water dechlorination agent. High concentrations will contribute to elevated chemical oxygen demand in aquatic

environments.

96 hour LC50 (fish): 150-220 mg/L 48 hour IC50 (algae): 48 mg/L 24 hour EC50 (water flea): 89 mg/L

Environmental Transport: Soluble in water.

Environmental Degradation: Rapid biological decomposition.

Soil Absorption/Mobility: Slight.

Section 13 - Disposal Considerations

Disposal: Waste determinations typically consider Sodium Metabisulfite

contaminated materials to be non-hazardous.

Disposal Regulatory Requirements: Follow applicable Federal, state and local regulations. **Container Cleaning and Disposal:** Follow applicable Federal, state and local regulations.

Section 14 - Transport Information

DOT Transportation Data (49 CFR 172.101)

Shipping Name: Sodium Metabisulfite, non-regulated material

Shipping Symbols: NA

Safety Data Sheet SODIUM METABISULFITE

Hazard Class: NA Subsidiary Hazard: NA

ID No.: NA (No Placard Required)

Packing Group: NA Label: GHS label

Special Provisions: NA

Section 15 - Regulatory Information

EPA Regulations:

RCRA Hazardous Waste Classification (40 CFR 261): Not listed. CERCLA Hazardous Substance (40 CFR 302.4): Not listed CERCLA Reportable Quantity (RQ): NA

SARA Title III: Section 302: Not listed. Section 313: Not listed.

FIFRA: Not regulated.

TSCA: Inventory listed chemical; PAIR Reportable
Not listed in Toxic Substances Chemical Index
