

ACCREDITATION DOCUMENT

TEST 267

INEOS Rafnes AS, Ineos Rafnes Laboratorium
Rafnes Industriområde
3966 Stathelle

The scope of accreditation is in accordance with the specifications on the following pages in this document.

The accreditation was initially granted 23.08.2012. The accreditation is given according to "Law on the free exchange of goods in the European Economic Area" of 12.04.2013.
The organisation complies with the requirements in NS-EN ISO/IEC 17025 (2017)

The accreditation requires regular surveillance, and is valid until 07.04.2031.
The decision of accreditation made by Norwegian Accreditation implies that the organisation has been found to fulfil the requirements for accreditation within the scope.
The organisation itself is responsible for the results of performed measurements.
