

MAXGUARD™ EZM

WHITE MARINE GELCOATS

At INEOS Composites, our experience and history of success within the marine industry is well-documented. But we did not do this alone. Our commitment to collaborating with the industry's leading boat builders to deliver high performance products is the foundation of our success, including our entire Maxguard™ product offering.

Maxguard™ gelcoats provide superior performance in critical use environments with the added value of high weatherability and outstanding cosmetics. As a result, your boats will maintain their luster and finish for years to come, providing a great value for your consumers. INEOS has a history of being the market leader in providing products with reliable, durable, real world performance.

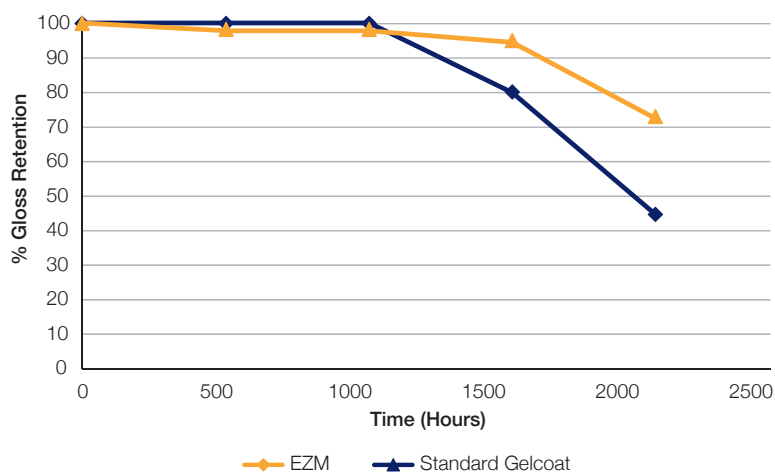

Maxguard™ EZM marine white gelcoat is specifically designed to offer easier application in complex molds along with excellent weathering performance.

In addition to its application properties, EZM gelcoat achieves the high level of UV and blister resistance required by the world's top boat builders. Premium boat builders who demand the best can rely on the performance and ease of use associated with EZM gelcoats.

Benefits

- Great viscosity and gel time stability
- Exceptional application properties
- Improved air release
- Non-tacky overspray
- Excellent blister resistance
- Good gloss retention
- MACT compliant
- Easy to repair

Gloss Retention vs. Time

INEOS Composites

Innovation and Collaboration to Grow the Marine Market

INEOS has designed a complete line of premium gelcoats, epoxy vinyl ester resins, unsaturated polyester resins, low profile resins, fuel tank resins and barrier coats. Combined with INEOS' boat-building expertise, product development and technical service, INEOS will help you become a better, more profitable boat builder.

INEOS' technical service team has an industry-leading reputation for solving problems. We work closely with our customers to understand specific application challenges and recommend the best product to meet business objectives. Whether focused on product design, process optimization or new product development, INEOS prides itself on building partnerships that lead to innovative solutions.
