

REACH SVHC Statement

Effective date: June 2023
Supersedes: January 2023

REACH Substances of Very High Concern

Dear Customer,

The following information is provided in response to your request for INEOS's Composites position concerning the presence of Substances of Very High Concern (SVHCs) in the products we manufacture, market and sell to customers in the European Union (EU).

INEOS Composites can confirm that:

- Procedures are in place to ensure compliance with the REACH obligations of a supplier for proactively and reactively informing our customers in situations where SVHCs are present in our products. Additionally, as a general rule, INEOS Composites will provide you with the latest version of the Safety Data Sheet (SDS) upon product purchase. If an SVHC is present in any of the products you purchase from INEOS Composites, the substance will be listed on the European SDS (at "any known concentration" equal to or greater than 0.1 %).
- The current INEOS Composites Performance Materials portfolio does not contain an SVHC substances at 0.1% or higher.
- Where applicable, you will see these substances identified on the European SDS for the product. Although not legally required, INEOS Composites is working on the reformulation of (some of) these products, where there is a benefit from reformulation to INEOS Composites and our customers. In specific cases, you may be contacted to review the options.
- As additional SVHCs are placed on the candidate list, we will review the formulations of our product portfolio to phase out these substances from our products, where possible.

Please use the following link to see the latest version of the candidate list: <https://echa.europa.eu/candidate-list-table>

For additional information on REACH at INEOS Composites, visit our website's Safety, Health and Environment (SHE) page at: www.ineos.com/composites-she

If you have questions regarding any REACH-related subject, please contact INEOS Composites via your sales or customer service representative.

Kind Regards,

Sandra Monsonis, Product Regulatory Manager EMEA

IMPORTANT DISCLAIMER

This information has been gratuitously provided by INEOS Composites. Although it is intended to be accurate, INEOS Composites DISCLAIMS ANY AND ALL LIABILITY, EITHER EXPRESS OR IMPLIED. This information is based on many factors beyond INEOS Composites' control, including but not limited to the completeness and accuracy of information received, or the conditions prevailing when operations were observed and/or sampled. In choosing to rely on or use this information, you assume all risk including the results obtained and agree to indemnify INEOS Composites against any and all claims. All recommendations or suggestions must be evaluated by you to determine their applicability or suitability for your particular program. Any information claimed by INEOS Composites to be confidential or proprietary is not to be disclosed to any third party.

REACH will continue to apply in the United Kingdom until the United Kingdom exits the European Union. REACH or REACH-type requirements may continue to apply after the United Kingdom exits the EU, however this is unclear at the moment. Once the consequences of the exit become clearer, INEOS Composites will decide on necessary steps to be taken.
