INEOS:**

Approx. 220km – 2.5 hrs.

Driving distance from Sandefjord Airport/Torp:

Approx. 80km – 50 min.

INEOS Bamble and Rønningen Industrial Site is located in the southern part of Norway, approximately 160 km south of Oslo, in the Bamble municipality in Telemark. This is also known as the petrochemical cluster in Norway together with neighboring companies INEOS Rafnes Industrial Site and Herøya Industrial Park in Porsgrunn.

The site was established in the mid-1970s as a petrochemical plant with three separate assets. Over the years, space at the site has opened up, leaving available space and infrastructure for alternative industrial activities.

INEOS Olefins & Polymers Europe owns the site and is part of the INEOS Group which is one of the leading chemical companies in the world.

INEOS in Norway

- **EXCELLENCE in efficiency** – With excellent reliability and high utilization rates, INEOS Bamble is closely integrated with the neighboring plants and services.
- **EXCELLENCE in infrastructure** – Of a total of 184 000m², 129 000m² is available for new industry.
- **EXCELLENCE in safety** – INEOS is a safe and environmentally responsible company with ongoing commitment to protect the health and safety of our employees, contractors, the communities and users of our products.
- **EXCELLENCE in people** – The site has a long tradition in cooperation with local schools and universities in employing apprentices to educate students with a mix of operational and technical knowledge of our processes. Surrounding R&D Centres, Statoil Yara, INEOS, and Norner ensure a local population with long-term experience and a high level of industrial competence within process industry.
