INTERLOCK SYSTEMS – A LIFE SAVING RULE

INEOS cares for the Safety of our contractors
Hence the principle of “Life Saving Rules”
A violation of a rule will NOT be tolerated by INEOS
and regarded as a incident even
at the customer premises or on the public road!

When cleaning the rotary valve,
do NOT insert your hand inside the valve.

Do NOT disable the interlock of the safety grid.
STRICTLY FORBIDDEN by INEOS!!

Together we can make it safer
