INTERLOCK SYSTEMS – A LIFE SAVING RULE

INEOS cares for the Safety of our contractors
Hence the principle of “Life Saving Rules”
A violation of a rule will NOT be tolerated by INEOS
and regarded as a major incident even
at the customer premises or on the public road!

Overriding the dead man system
of the operating mechanism to raise the silo!
Disabling the interlock
of the safety grid on the rotary valve!
STRICTLY FORBIDDEN by INEOS!!

Together we can make it safer
