

LOGISTICS SAFETY COMMUNICATION

Januari 2019

**No entry to confined space without authorization
A LIFE SAVING RULE**

INEOS cares for the Safety of our contractors
Hence the principle of “Life Saving Rules”
A violation of a rule will NOT be tolerated by INEOS
and regarded as a major incident even
at the customer premises or on the public road!

Death by nitrogen

There is always a potential risk that a silo contains an inert gas. **NEVER** enter into a silo without taking the necessary precautions!
(proper ventilation, oxygen measurement, permit)

Together we can make it safer
