~ 215 polymer deliveries/week
to 23 consignees

- Fjällbacka
- Hjörning
- Châteaubriant
- ⊙ Lisbon
- Seville
- Sezzadio
- ⊙ Moscow

And external producers

- Closure factory
- ⊙ Straw factory
- Strip & Film factory

Food safety and quality

- ▶ The polymers we use are often used in direct contact with the food.
- ▶ Food safety and quality is very important.
- ▶ All kinds of contamination must be avoided!

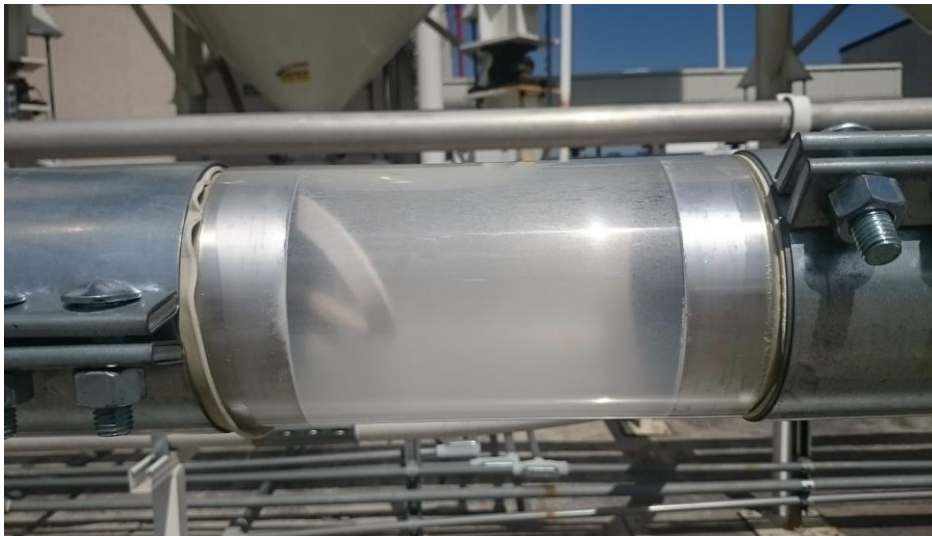

Problems with logistics and material handling

- ▶ Ignoring safety instructions – contract dis-continued
- ▶ Cross contamination in rotary feeders
- ▶ Pieces of mobile phone found in silo
- ▶ Smashed spray can with green colour found in silo
- ▶ Other contamination
- ▶ Pellet condition: streamers, fines, lumps of molten polymers

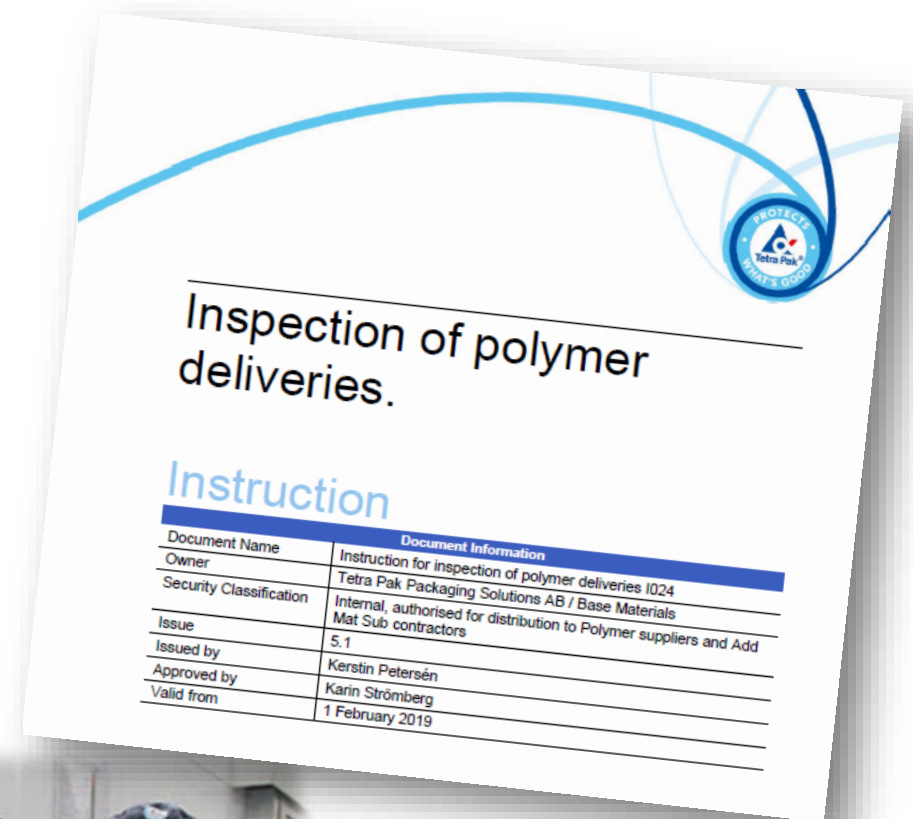

Gallery – problem examples

Tetra Pak requirements

- ▶ Correct delivery
- ▶ Clean equipment
- ▶ No contamination – prevent risks
- ▶ Safe sampling & unloading
- ▶ Correct silo
- ▶ Correct un-loading conditions

OUR
PROMISE

You are part of this – be proud and pro-active!
